

# FACTS & STATS

## ABOUT YOUNG DRIVERS

Teenagers, and parents alike, perceive a driver's license as a ticket to freedom. But the price is steep...

#1

Motor vehicle crashes are the #1 killer of teenagers

One teen died in a crash every

33  
DAYS

One teen driver crash occurred every

3  
hours

Motor vehicle crashes are the leading cause of injury-related death for North Dakota teens. Young driver inexperience, coupled with immaturity, often results in risk-taking behaviors such as speeding, alcohol use, and not wearing a seat belt – all of which contribute to an increased death rate.

**In North Dakota, teen drivers age 14-19 account for 6% of all licensed drivers, but are behind the wheel in nearly 16% of all crashes.**

The majority of teenagers involved in fatal crashes are unbuckled. In 2022,

50%

of teen drivers who died were unbuckled.

Traffic crashes are a leading cause of death for teens. **Impairment, passengers, distractions from mobile phones and navigation systems, speeding, and not wearing a seat belt** are among the major contributing factors to the number of teen injuries and fatalities on our nation's roads each year.
