# WORKPLACE SAFETY COURSES

## Critical Issues Training Series - Safety Tensioning

**Course Length: 1.5 hours**

**NDSC Member: FREE Non-Member: \$30**

Working in Health and Safety can be very challenging and rewarding. Helping others to become safer in their personal and professional lives can provide personal satisfaction and a noble sense of purpose. However, one challenge specific to health and safety is the idea that it is a thankless profession. How does someone fully learn about, measure or count incidents, like injuries or property damage, that never materialize?

# NDSC SAFETY SERVICES

Complement the region's best safety training with our lineup of safety services. NDSC has the latest technology and a team of highly qualified safety consultants who understand what you need to accomplish your company's safety goals and standards.

## AIR SAMPLING

NDSC offers air quality sampling as part of our Industrial Hygiene Services. The NDSC deploys the latest technology of air pumps to sample and analyze your workplace. Sampling for air contaminants includes; gasses, dust, vapors, fumes and molds. These chemical and biological hazards can have a major impact on your team and their safety. The NDSC provides the equipment, data analysis and a written assessment report.

## NOISE ASSESSMENT

The CDC estimates 22 million workers are exposed to damaging noise each year. We offer noise assessments using state-of-the-art sound level meters and dosimeters. An occupational noise assessment includes a consultation and a written assessment report. OSHA requires employers to prove the existence and non-existence of physical and chemical hazards in the workplace, the NDSC can help you identify concerning exposure, and make a plan to be in compliance with OSHA's Noise Standard.

## MOCK OSHA INSPECTION

NDSC Safety Consultant John Young has more than 20 years of experience working in OSHA and can help you prepare for the potential of OSHA showing up on your doorstep. Young will help to evaluate the hazards in your workplace and will provide OJT training as he conducts a Mock OSHA Audit on what your company may expect during an inspection.

## FIT TESTING

Proper fit testing makes the difference between safe and at-risk exposure. We can fit your team fast and get them back on the job safely. NDSC's fit testing can be combined with other training and make your OSHA annual requirement more efficient. The NDSC is offering quantitative testing that measures the amount of face seal leakage, which eliminates the risk and uncertainty when it comes to your team's safety.

We also offer custom safety plans, consulting, AED checkups and more.
